## Jason Harrell

Using vacation incentives has given me more opportunities to talk to potential clients! People are amazed at how simple it really is. And being able to leverage the trips to other businesses is HUGE! My very first run at marketing these for leads gave me over 60 people to talk to in less than 24 hours! This is awesome!

There's so much value using vacation incentives for my travel business. I love adding value to my new Members by giving them the 8 Day/7 Night vacation to 3500 destinations when they get the VIP Membership. They love that extra bonus!

Using the travel vouchers has provided me with an exciting gift to provide my clients as a way of saying thank you for their business. The vouchers have also allowed me to create new business by reaching out to the prospect with generosity. Three of my recent clients have given me very positive feedback saying that the resorts they stayed at were very nice and their overall savings were great. one of my clients, who took the Branson, MO trip indicated the savings was \$484 on the rooms. The vouchers are definitely a solution to generating more revenue.
